Our response

Having conducted a reasonable search of our records, we can confirm that we hold some information in the scope of your request.

In relation to part 1, we can confirm that we have received a data breach report from Derbyshire Healthcare NHS Foundation Trust which matches the situation you have described. This was received on 24 July 2024.

It should be noted that the ICO requests that data controllers do not include personal data when reporting a personal breach to us. As such, we cannot categorically confirm which individual or individuals a specific data breach report will relate to.

In relation to part 2, we do not hold information in the scope of this part of your request. This is because our work into this data breach is ongoing. As such, the ICO has not yet issued a response to this data breach nor have we determined what 'consequences' there will be, if any.

This concludes our response.
