**Campaign 1: Edgy Type
Toolkit for charities**

TH!NK PRIVACY awareness in your business

You have hopefully now launched TH!NK PRIVACY in your business using the generic materials.

Generic + Campaign

This set of campaign materials has been prepared for immediate use. The campaign is intended to follow and complement the 'generic' TH!NK PRIVACY materials which are also available via our website. The generic materials contain messages with a long shelf life. They have a neutral tone of voice to inform, educate and influence perceptions about data privacy.

Edgy Type

This high visibility campaign will enable you to drive home some further important messages about data privacy.

This campaign has a distinctive and arresting tone of voice, portraying the sinister thoughts of someone who would do evil with your data. It highlights the very real threat of information that is not kept secure being accessed and abused for nefarious purposes which can have potentially drastic consequences for organisations, their employees and their supporters.

TH!NK PRIVACY

TH!NK PRIVACY has been created as a simple, easy to understand articulation of the challenge faced by employees of all organisations.

It captures the required personal responsibility and frame of mind.

It expresses the need for employees to 'press the mental pause button' before action.

Next steps

Go for it!

Time to get your awareness campaign underway.

Try to monitor any changes in behaviour and measure them where possible.

Are fewer people leaving their screens on, are fewer laptops or documents being left on desks? Any change in behaviour will have a positive effect on your organisation so it's worth noting down for reference in future communications to employees.

What was the impact of the activity? What were the big successes?

THINK PRIVACY has been developed by a community of organisations concerned about data privacy.

The **THINK PRIVACY** campaign has been designed by blue goose, a specialist employee communication agency.
