Communicating the importance of data privacy to your employees

Campaign 1: Edgy Type
You have hopefully now launched THINK PRIVACY in your business using the generic materials.

**Generic + Campaign**
This set of campaign materials has been prepared for immediate use. The campaign is intended to follow and complement the ‘generic’ THINK PRIVACY materials which are also available via our website. The generic materials contain messages with a long shelf life. They have a neutral tone of voice to inform, educate and influence perceptions about data privacy.

**Edgy Type**
This high visibility campaign will enable you to drive home some further important messages about data privacy. This campaign has a distinctive and arresting tone of voice, portraying the sinister thoughts of someone who would do evil with your data. It highlights the very real threat of information that is not kept secure being accessed and abused for nefarious purposes which can have potentially drastic consequences for you, your business and your customers.
TH!NK PRIVACY has been created as a simple, easy to understand articulation of the challenge faced by employees of all organisations. It captures the required personal responsibility and frame of mind. It expresses the need for employees to ‘press the mental pause button’ before action.
If you post confidential or sensitive data on a social media network, however innocently, you can never be sure who will see that information. News travels fast, don't be the cause of a leak or security breach. That would be bad news for you, your business and your customers.

Your responsibility to protect your customers and colleagues does not stop when you leave the office. So, when you're out and about never work on sensitive or confidential information. Don't take the risk, you never know who is looking over your shoulder.

Do you really know what you're emailing? Before you hit 'Send' on your email make sure you look through the email chain for any sensitive information including who's in the loop, 'Reply all' can often send the wrong information to the wrong person. Remember you can't unsend data!

TH!NK PRIVACY

If you send data, who's receiving it? Are you data privacy aware? It's IN YOUR HANDS! IT'S ABOUT RESPECT!

We all responsible for ensuring that customer and employee personal information that needs to be sent or taken off-site. Think Privacy! Don't compromise data!

TH!NK PRIVACY

ALWAYS DISPOSE OF PERSONAL DATA IN THE CONFIDENTIAL WASTE BIN with the requirement to operate a clear desk policy. This policy is in place to ensure that company assets are protected, but it's the personal data they hold that is of most value to criminals. The repercussions of any loss of personal data could be very serious for our business, our reputation and for you. Think privacy.
Posters & more

The posters can be printed on your desktop printer and put up in employee areas.

(See links to download the files on the following pages.)

A selection of other materials including postcard, deskdrops and bin stickers has been created.

(See links to download the files on the following pages.)

Downloadable desktop wallpaper

**Desktop wallpaper – option 2**

This is used to remind employees of the importance of being careful when sending emails.

Click on the icon below to download the wallpaper image to your desktop.
Go for it!

Time to get your awareness campaign underway.

Try to monitor any changes in behaviour and measure them where possible.

Are fewer people leaving their screens on, are fewer laptops or documents being left on desks? Any change in behaviour will have a positive effect on your organisation so it’s worth noting down for reference in future communications to employees.

What was the impact of the activity? What were the big successes?

TH!NK PRIVACY has been developed by a community of organisations concerned about data privacy.
