

## **Environmental Information Regulations 2004 (EIR)**

### **Decision notice**

**Date:** 11 February 2020

**Public Authority:** Steyning Parish Council  
**Address:** The Steyning Centre  
Fletcher's Croft  
Steyning  
BN44 3XZ

### **Decision (including any steps ordered)**

---

1. The complainant requested information from Steyning Parish Council (the Council) about correspondence relating to a Neighbourhood Plan and Local Green Space designations.
2. The Commissioner's decision is that the Council has breached regulation 5(2) of the EIR in that it failed to provide a valid response to the request within the statutory time frame of 20 working days.
3. The Commissioner requires the Council to take the following step to ensure compliance with the legislation.
  - The Council must provide a substantive response to the request in accordance with its obligations under the EIR.
4. The Council must take this step within 35 calendar days of the date of this decision notice. Failure to comply may result in the Commissioner making written certification of this fact to the High Court pursuant to section 54 of the Act and may be dealt with as a contempt of court.

## Request and response

---

5. On 14 October 2019, the complainant wrote to the Council and requested information in the following terms:

*"I am issuing a Freedom of Information request for copies of any correspondence between Cllr Campbell and any Steyning based organisation or local protest/special-interest group that includes reference to the current Public Consultation of the draft Neighbourhood Plan (or Community Plan) and/or reference to proposed Local Green Space designations. This FoI covers any email correspondence from all email accounts authored and/or sent by Cllr Paul Campbell or Mr Paul Campbell as an individual or acting on behalf of a group, as well as any similar written correspondence that may have been posted or hand-delivered."*

6. The Council acknowledged the request on 15 October 2019. To date, a substantive response has not been issued.

## Scope of the case

---

7. The complainant contacted the Commissioner on 17 December 2019 to complain about the Council's failure to respond to their request.
8. The Commissioner has considered whether the Council has complied with its obligations in relation to the time for compliance at regulation 5(2) of the EIR.

## Reasons for decision

---

9. Regulation 2(1) of the EIR defines environmental information as being information on:

*(a) the state of the elements of the environment, such as air and atmosphere, water, soil, land, landscape and natural sites including wetlands, coastal and marine areas, biological diversity and its components, including genetically modified organisms, and the interaction among these elements;*

*(b) factors, such as substances, energy, noise, radiation or waste, including radioactive waste, emissions, discharges and other releases into the environment, affecting or likely to affect the elements of the environment referred to in (a);*

*(c) measures (including administrative measures), such as policies, legislation, plans, programmes, environmental agreements, and activities affecting or likely to affect the elements and factors referred to in (a)...as well as measures or activities designed to protect those elements;*

*(d) reports on the implementation of environmental legislation;*

*(e) cost-benefit and other economic analyses and assumptions used within the framework of the measures and activities referred to in (c); and*

*(f) the state of human health and safety, including the contamination of the food chain, where relevant, conditions of human life, cultural sites and built structures inasmuch as they are or may be affected by the state of the elements of the environment referred to in (a) or, through those elements, by any of the matters referred to in (b) and (c);*

10. The Commissioner has not seen the requested information but has considered the wording of the request and notes that it is for information relating to a Neighbourhood Plan and Local Green Space designations. She believes that this is likely to be information about policies, legislation, plans, programmes, environmental agreements and activities likely to affect the elements and factors referred to in Regulation 2(1)(a), Regulation 2(1)(b) and Regulation 2(1)(c). For procedural reasons, she has therefore assessed this case under the EIR.
11. Regulation 5(1) states that: *"a public authority that holds environmental information shall make it available on request."*
12. Regulation 5(2) of the EIR states that:  
  
*"Information shall be made available under paragraph (1) as soon as possible and no later than 20 working days after the date of receipt of the request."*
13. On 13 January 2020 the Commissioner wrote to the Council, reminding it of its responsibilities and asking it to provide a substantive response to the complainant within 10 working days.
14. Despite this intervention the Council has failed to respond to the complainant.
15. From the evidence provided to the Commissioner in this case, it is clear that the Council did not deal with the request for information in accordance with the EIR. The Commissioner finds that the Council has breached regulation 5(2) by failing to respond to the request within 20

working days and it is now required to respond to the request in accordance with the EIR.
